GERMAN HORDES SWEEP BEFORE ALLIED ONSLAUGHT

AMERICANS AND FRENCH CONTINUE VICTORIOUS COUNTER ATTACK. THOUSANDS OF PRISONERS CAPTURED.

(By the Associated Press)
American and French troops are still advancing from the Aisne to the Marne where Thursday they launched a counter attack of large proportions. German reserves, hurried up to meet the threat against their right flank in Soissons Chateau Thierry-Rheims salient, are engaged in the struggle which is raging violently along the entire front. South of the Marne at a point where the Germans had made the greatest advance during the first three days of the offensive, the allies have retaken Montvoisin and ejected the enemy from the outskirts of Ocuilly, two miles westward. North of the Marne and between the river and Rheims Franco-Italians have struck back at the Germans and forced their lines westward. Roi and Courton woods have been retaken and the allies have improved their lines at Bouilly. There is no mention in official statements of fighting along the Marne east of Chateau Thierry or east of Rheims, in the Champagne sector. The allied plunge against the German lines south of the Aisne so far as known has advanced to the extreme depth of nearly six miles.

ALLIED DRIVE UNCHECKED.

Paris, July 19.—Between the Aisne and Marne, in spite of new arrivals of German reinforcements, the allies are making good progress and capturing large numbers of prisoners, according to the official statement today. Between Rheims and the Marne the French have recaptured Montvoisin and made progress in Roi and Courton woods, capturing four cannon and 400 prisoners. Between the Aisne and Marne the battle continues violently. South of the Marne by a vigorous attack the French ejected the enemy from the outskirts of Quilly.

FRENCH CAPTURE 16,000

London, July 19 (3:45 P. M.)—French troops in their counter offensive on battle zone between the Aisne and Marne, captured 16,000 prisoners yesterday, according to news reaching London this afternoon.

Americans Press Forward

With American Forces on Aisne-Marne Front, July 19 (1 P. M. French Time).—Franco-American forces continue to advance their spearhead midway between Soissons and Chateau Thierry, the Americans taking several towns in the course of last night. Early this morning the Americans also progressed further. During the night German reinforcements were coming from the north but the expected counter attack has not materialized up to an early hour this afternoon. Americans continue to hold the plateau southwest of Soissons, where Thursday the Germans made their first organized counter attack.

German Raids Repulsed.

London, July 19.—German raids last night in the Villers-Bretonneux and Morancourt sectors on either side of the Somme was driven off by the British, says the official statement today. The British captured a few prisoners in the regions of Duquoy, Willerval and Lore.

Hundred Guns Captured.

Paris, July 19.—Over 100 guns have been captured in the allied attack on the Aisne-Marne front, according to the Herald.

Thousands of Prisoners.

Paris, July 19.—Premier Clemenceau's newspaper l'Homme Libre without intending to divulge the number of prisoners and guns captured, says it is fully equivalent to the number of prisoners announced by the Germans as having been captured by them Monday. (Germans announced Monday Tuesday that 18,000 prisoners had been taken Monday.)

CROP CONDITIONS IN SOUTH END OF COUNTY

T. Q. McCammon states that threshing the oat crop on Horse Shoe Ranch was finished Saturday. The best day's threshing was 2000 bushels. The crop averaged 25 bushels per acre, although on the island following a better crop of last year it went as high as 45 bushels in places. The bottom land did not turn out so well. In following Hoover's advice to save everything, a rake was run over the shock times after the shocks had been removed and pigs were then turned loose on the stubble to pick up what the rake missed. Cotton looks well, but the dry weather has damaged corn fully 40 per cent. The shock of the ranch are being filled with green corn bought from farmers who were about to lose it all and the cane crop intended for the silos will be stacked. Three cuttings of alfalfa have been made and another yet to come. Next year the entire acreage of the ranch will be put in wheat and oats.

\$1,400,000 OF FOOD SENT TO ALLIES DURING LAST YEAR.

Washington, July 19.—Food valued at approximately \$1,400,000,000 was sent to the allied countries from the United States during the fiscal year which ended June 30th. Food Administrator Hoover wrote President Wilson in a letter made public today reviewing the work of the Food Administration. The shipments represent those made for the allied armies and civil population, Belgian relief, Red Cross and the American military forces. The figures indicate, Mr. Hoover told the President, the measure of effort by the American people to provide the allies with food supplies.

The shipments of meats and fats to allied destinations were for the fiscal year of 1916-17 2,166,500,000 pounds and for the fiscal year of 1917-18 3,011,100,000 pounds, an increase of 344,600,000 pounds.

Cereals and cereal products were shipped as follows:
In the fiscal year of 1916-17 259,900,000 bushels, and in the fiscal year of 1917-18 340,800,000 bushels, which represents an increase of 80,900,000 bushels.

SWITZERLAND PLANS SOCIETY OF NATIONS

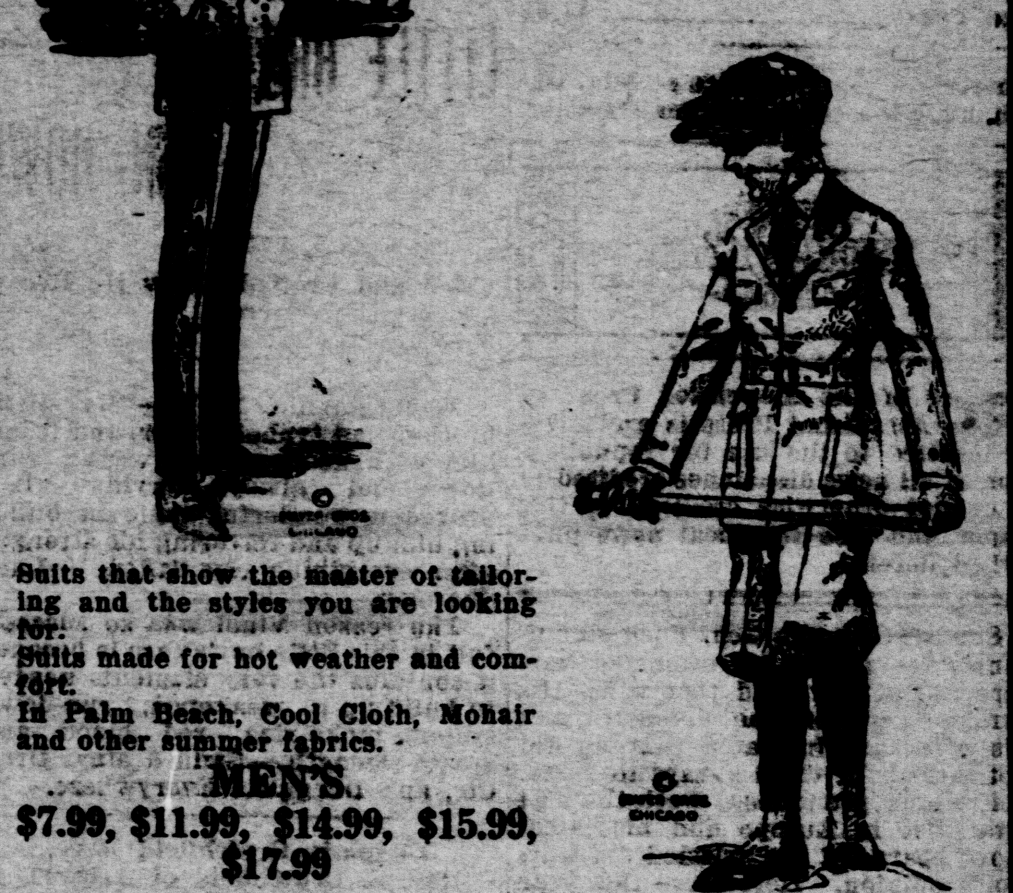

Berne, Switzerland, June 19 (Correspondence of The Associated Press).—Switzerland considers that the treaty and its democratic character make it obligatory upon the little republic to take up the problem of a society of nations, according to President Callender.

In an address to Parliament at its opening the President told the lawmakers that the Federal Council has named Professor Max Huber to prepare a plan for a society of nations which will then be submitted to a committee of experts, examined by them and finally presented to the Council and to Parliament for action. The Federal Council, the President said, will do what is possible to bring arbitration during the present conflict, but only in case both groups of belligerents are in accord with such a step. Such a condition, the president admits, is not easy of attainment, each belligerent party insisting in turn that this or that is the right one. Nevertheless, the president hopes to bring about a settlement.

LIEUT. ROOSEVELT MAY BE PRISONER

New York, July 19.—Lieutenant Quentin Roosevelt, reported missing after an aerial engagement of the German lines, probably landed unhurt and is now a prisoner in the hands of the Germans, according to a cable message received tonight by his father, Colonel Roosevelt.

Colonel Roosevelt said, on his arrival here tonight from Saratoga, that he had just received from his son-in-law, Surgeon Major Richard Derby, who is now in Paris, a cablegram which read: "Companion aviator confident Quentin landed unhurt."

NEWS BREVETIES

(By the Associated Press)
New York, July 19.—Tourist traffic in Berlin is increasing according to the Cologne Gazette of June 5. In May there were 119,637 visitors in Berlin, an increase of 10,390 as compared with May of last year. The result of peace with Russia is reflected in the fact that there were 6351 visitors from Russia. There were two arrivals from France, four from the United States and one from England.

Manchester, England, July 17.—Managers of shell manufacturing factories reckon that it requires three women, because of their lighter physique, to do the work of two men. Experience has shown that it is unwise to make a long workday for the women and in most of the shell factories in this district they put in only eight hours, while men work eleven and a half and in some places twelve.

London, June 12.—In the House of Commons today Postmaster General A. H. Illingworth said that 10,000,000 letters and 350,000 parcels were sent to the army weekly. Letters to prisoners of war numbered 116,000 a week and parcels 126,000.

Sufrage Leader in Ada.
Miss Sallie Gleaton of Atlanta, Ga., was in the city today in the interest of the suffrage amendment that will be voted on in Oklahoma in November. Miss Gleaton has been in the thick of the fight in New York and other states and is an authority on the subject of woman suffrage. However, she is a suffragist and not a suffragette, and her campaign methods have no sort of similarity to those of the White House picketing suffragettes.

KEPT HER AWAKE

The Terrible Pains in Back and Sides. Cardui Gave Relief.

Marksville, La.—Mrs. Alice Johnson, of this place, writes: "For one year I suffered with an awful misery in my back and sides. My left side was hurting me all the time. The misery was something awful."

I could not do anything, not even sleep at night. It kept me awake most of the night. I took different medicines, but nothing did me any good or relieve me until I took Cardui.

I was not able to do any of my work for one year and I got worse all the time, was confined to my bed off and on. I got so bad with my back that when I stooped down I was not able to straighten up again. I decided I would try Cardui. By time I had taken the entire bottle I was feeling pretty good and could straighten up and my pains were nearly all gone.

I shall always praise Cardui. I continued taking it until I was strong and well. If you suffer from pains due to female complaints, Cardui may be just what you need. Thousands of women who once suffered in this way now praise Cardui for their present good health. Give it a trial. NC-133

PROF. GLENN CLARK TO LEAVE NORMAL

Prof. Glenn Clark has resigned his position as head of the department of mathematics in the East Central normal and will leave in a few days to begin work in Houston, Texas, with one of the big oil companies. He will do work in the geological department of the oil game. For years he has specialized in geological work and is just now getting ready to put that to practical use.

Prof. Clark came to the Normal in the fall of 1913 and began his career as a teacher and director of athletics. In the five years he has been here he has established East Central as the leader in football and has advanced the school's standing for clean sports and thorough work. "The people of Ada and the Normal school particularly," says President Gordon, "will express universal regret that Prof. Glenn C. Clark, head of the department of mathematics and athletic coach, is severing his connection with East Central Normal school."

"Ever since Mr. Clark finished his course in the University of Oklahoma he has been interested more or less in geology, and especially the oil phase of geology. Tempting offers have come to him from time to time, but he has heretofore not been willing to give up his work as instructor. Some weeks ago, however, an offer came from the Gulf Production Company, with headquarters at Houston, Texas, that seemed to make it advisable for him to give up his work as a teacher and take up this line of work."

"People who know Mr. Clark's work the closest appreciate him the most. He is an instructor of no mean ability, is affable and ready at all times to co-operate with his fellow teachers and his institution. He is perhaps better known, however, for his work on the athletic field. He has always stood for high ideals and clean playing in athletics, believing that it is better to lose a game if it takes unfair playing of any kind to win it. His place in this respect will be very difficult to fill."

"His many friends in the institution and in the city wish him exceedingly well in his new venture and hope that he and Mrs. Clark will find a pleasant place in which to live and be surrounded by good friends."

RUMORS OF A. L. BECK UNFOUNDED

TELEGRAM FROM WILL H. HART PUTS END TO STORY OF ARREST FOR DISLOYALTY.

For several days a rumor, starting from no one knows where, has been circulated in Ada that Adam L. Beck, formerly president of the Oklahoma Portland Cement Co., had been interned for disloyalty and that his property had been confiscated. To ascertain the facts in the case J. M. Wintersmith wired Will H. Hart and received a reply putting to rest all rumors. The telegram reads thus: "Absolutely untrue in toto. No restraint of liberty or restraint of property. All family ties unimpaired. His aggregate subscriptions all issues of Liberty Bonds \$72,000. This corporation (Indiana Portland Cement Co.) purchased \$95,000 short time certificates."

The rumors have done a great injustice to Mr. Beck. He was not only a loyal booster for Ada during his ten years of residence here, always ready to devote both time and money to advancing the interests of the city, but he was also a loyal American citizen, born in America and ready to do his part for his country. When here in January he stated to a News representative and others that although his income tax would amount to a good many thousands of dollars this year, he was ready to pay up cheerfully and thought all others should do likewise, and that he expected to invest every available dollar he had in Liberty Bonds every time the government made a call.

This is a case illustrating the damage that can be done in bandying rumors about, for one always grows bigger in repeating and the innocent may suffer from it. Locally all suspicious cases should be reported to the council of defense for investigation and when a rumor is heard one should go to the council of defense for the facts. All disloyalists should be dealt with to the full extent of the law, but in these days of trouble no man should be made the victim of mere rumors.

FIRST AID TO PATRIOTISM: WOMAN SUFFRAGE

Patriotism depends on love of country and a sense of responsibility to one's country.

The responsibility in a democratic government like the United States rests with the voters.

As long as one-half the people are denied the vote, the sense of responsibility in one-half the people will not be fully developed.

Some inherit from mothers as well as fathers.

Does the country need patriotic and responsible men?

Then it must develop patriotic women with a high sense of responsibility.

Then it must develop patriotic women with a high sense of responsibility.

Woman suffrage means patriotism. Women want to vote because the

Some weeks ago Gen. Foch significantly remarked that offensive warfare is the only kind that wins. His armies were on the defensive but his utterance indicated that he did not intend for them always to be so. Joffre once pronounced Foch the best strategist in Europe and his latest move bears out the grizzled old warrior's opinion. Heretofore this year the Allies have considered themselves lucky when they finally stopped the drive of the Huns, but this time not only stopping them but taking the offensive on a large scale has proved a big surprise and proves that the strength of the Allies has reached a point that bodes no good to the Huns. The latest drive was heralded by the Germans as more terrific than any preceding and now to be stopped in their tracks and subjected to a vigorous counter attack before they had more than started is an eye opener to the Germans. Hindenburg's dinner that he promised the German people he would eat in Paris April

4 must be cold by this time but it may be that Foch will soon eat a dinner on German soil. The part played by Americans has been most brilliant and in keeping with the best traditions of this nation. The American army is no longer a joke to the Kaiser and the junkers.

Today's dispatches indicate that there is no sign of slackening in the Allied drive, all of which causes unbounded joy throughout the civilized world. The Huns have already lost more than they gained the first three days and instead this being the grand offensive of the year it now appears to be the greatest defeat for the Germans. They will certainly need all their men on the French front hereafter and this will give the Italians a grand opportunity to clear their country of Austrian invaders. The Germans may possibly attempt another drive to save their faces before the people at home, but unless Foch is caught napping it is a safe bet that they will never get any nearer Paris. Their boasted plan of whipping the Allies before the Americans arrived is no longer possible, for the Americans are there and giving the world a wonderful exhibition of fighting spirit and prowess and millions more just like them are on the way.

LITTLE BROTHER RUN-DOWN

Cried and Fretted—How He Recovered.

Mountainville, N. Y.—"My little brother had typhoid fever, and it left him with no appetite, weak, run-down and always crying—Vinol proved a wonderful tonic in building him up and restoring his strength after everything else failed."—Lucy Sherman.

The reason Vinol was so successful in this little boy's case is because it contains the very elements needed to build up a weakened, run-down system, make rich, red blood and create strength.—Gwin & Mays Drug Co., and Druggists Everywhere.

GILMORE WITHDRAWS FROM SHERIFF'S RACE

To the Voters of Pontotoc County:
Owing to the serious illness of my wife it will be impossible for me to make the thorough campaign I had planned when I entered the race for sheriff, so I feel it incumbent on me to withdraw. I desire to thank my friends one and all for their interest and pledges of support and assure them it is duly appreciated, but my first duty is to my family.
Respectfully,
I. R. GILMORE.

MISS ATHELEAN JOHNSON OF WYNNWOOD DEAD

Miss Athlean Johnson died at the hospital late Thursday afternoon after a brief illness. The funeral services will be conducted this (Friday) afternoon at 5 o'clock at the Colonnade by Revs. Crutchfield and Williams of Wynnewood. The body will be taken to Mangum Saturday morning for interment by the side of the father and a sister of deceased who preceded her to the better world.

Deceased was the daughter of Mrs. L. L. Johnson of Wynnewood and a student in the East Central normal up to the time of her illness. She was a young lady who was deservedly popular with every one for she possessed all the admirable virtues to be found in the ideal young woman of today. She was very ambitious and energetic and death again found a shining mark when it claimed her.

DADDY'S EVENING TALK

BY MARY GRAMMER

THE ELEPHANTS.

"Mr. Jock Elephant was a very smart animal," commenced Daddy. "He had a fine memory as most of the Mr. Elephants have and was really a good deal brighter than Mrs. Jock Elephant."

"They had two fine children, one was a boy elephant named Ted and the other a girl elephant, only two months old, named Tillie."

"Now Mrs. Jock Elephant had been very cross for a whole month after Tillie had been born. She had been so afraid something would happen to her beautiful elephant baby that she was angry with everyone else who spoke to her and who took her attention away from her baby."

"Mr. Jock Elephant remembered that Mrs. Jock behaved the same way for a month after Ted had been born. She was so jealous and so careful of her babies; she loved them so much that no harm must come to them. And for a whole month there was always danger. After that they were stronger and better able to look after themselves."

"Mrs. Jock Elephant's home was in the zoo and the keeper took excellent care of her and of her family. But still she behaved just as she would have acted if she had been out in the jungles where she would have guarded her baby so carefully. The keeper knew this and understood how she felt so he was kinder to her than ever."

"But the time was past for Mrs. Jock to be cross, and once more she was very pleasant. They had a fine meal one day of water and hay which they like above everything else and to show how much they appreciated it, they began doing their tricks for the keeper."

"Not only did the keeper watch them, but many children who were in the elephant house and who saw that the elephants were about to perform, came over and watched them. Mr. and Mrs. Jock Elephant had many fine tricks. Ted had learned a number of

Once More She Was Very Pleasant.

them for the keeper taught them lots of things in his elephant school and Ted was going up to a higher class every day.

"The elephant school is the school the keeper started in which he taught the elephants to do tricks, for it would be of little use to the elephants if they were taught to do sums and to write and read. No one can quite think of an elephant sitting up with a pair of glasses before his eyes and trying to hold a book before him with the aid of his trunk."

"Besides very few books would interest the elephants if they could read except books on hay, and there aren't many written on that subject."

"So the elephants learn to do tricks, and the keeper calls his time for showing them how to do the tricks his lesson time. You know that in a circus they have a school for the different kinds of animals and they have lessons every morning. If they didn't do their lessons well they wouldn't be able to give such fine performances."

"Mr. and Mrs. Jock were looking forward to the summer when they would take real baths instead of the oil ones the keeper had given them through the winter to keep their skin from cracking."

"One of Jock's best tricks was the way he could catch pennies which were thrown to him. He put them in a little bank in his cage and every time he did this he rang a bell which the keeper gave him. And when he is given peanuts he is very wise, for he takes as many as he can get and holds them in his trunk if he hasn't time to eat them all."

"He had his toe nails cut the other day, for when an elephant is in the jungle he keeps his nails in good condition by going over rough ground. They find plenty of oil in the marshes for their skin, and they harden their feet by rough stones, which the keeper tries to take the place of with sandpaper."

"When they drink they use their mouths, which of course is what all sensible folks and animals do—in fact I believe everyone drinks that way. But then, you see, elephants have long trunks and we often wonder just how they can manage."

"They throw their trunks over their heads when they drink. Of course they get their food to their mouths by the help of their trunks."

"And tomorrow, for a treat, we're going to see Mr. and Mrs. Jock and their two children in the zoo, so I've told you lots of secrets about them." And both Nick and Nancy screamed with delight.

WHERE AMERICAN TROOPS ARE NOW FACING THE ENEMY

The pictures above show sections on the Chemin des Dames front in the Aisne sector which is now being held by Uncle Sam's soldier boys. At the left is the entrance of the captured German fortress of Malmaison, and at the right, French troops clearing a trench captured from the Germans and now being occupied by American troops.

BURIAL OF AMERICAN VICTIMS OF THE TUSCANIA SINKING

One hundred and fifty-nine American soldiers lie buried along a bleak stretch of Scottish coast. They are those who died when the British transport Tuscania was sunk. Their graves are at the water's edge close to the base of rocky cliffs. These photographs show the funeral procession leaving the morgue at Port Charlotte in the rain, the pipers leading, and the mourners viewing the burial ceremonies from the top of the cliff.

GEORGE OF ENGLAND A DEMOCRATIC KING

Paris, July 19.—(Correspondence of The Associated Press)—George V is described as a "democratic king," by a woman correspondent of the Petit Parisien who writes of her visit to Buckingham Palace on the occasion of an open air investiture.

"The sight of King George in the midst of his people at this ceremony filled me with mingled astonishment and admiration," she asserts. "When the American labor representatives said that with King George they had no impression of being in the presence of a king, they bestowed the highest praise on one who is only, and who is quite content to be only, the first gentleman of his kingdom."

"There is no difficulty about getting in for one of these investitures. It is unnecessary to use any influence or provide oneself with a letter of introduction, or even a ticket of admission—the King of England is to be seen by everybody."

"I noted the simplicity of his costume. There is nothing to distinguish him outwardly from all the others."

"While 'God Save the King' is being played he stands at the salute, holding himself quite straight, his grave frank countenance full at once of dignity and kindness. There is no hysterical enthusiasm, but in all eyes may be seen the kind of trust and esteem and affectionate pleasure with which one looks upon a kinsman or a friend of whom one is proud."

"We have here a truly democratic sovereign, one who instead of imposing his will upon the people feels that he insinuates their sentiments and wishes, who associates himself with their labors and shares their anxieties and sorrows, who fulfills his difficult role simply and unobtrusively."

EXAMINATION OF NEW REGISTRANTS ORDERED

The local exemption board has been ordered to call all Class 1 men of the last registration and those who have been placed in that class under the re-classification to report at Ada for physical examination Monday, July 22. It will be a big job to complete the examinations in one day, but the board expects to have every available physician on the job and finish it as speedily as possible.

STREET TAX LAW TO BE RIGIDLY ENFORCED

Crocket Hargis is making a canvass of the city, taking the census and locating every man who is subject to street duty, at the same time serving notice on those subject to duty to turn out and work four days or else pay \$4 into the street fund.

Commissioner Deal states that every man not exempt by law will be forced to comply with the law and no favor can be shown. Heretofore this law has been very loosely enforced, but Mr. Deal says it will be treated by him like all others. Rigidity-enforced this tax will yield a good sum for street improvement.

CLOSING OUT GOING TO QUIT BUSINESS

I wish to announce to my friends and to the public that my other business compels me to close out my business here. I hate to announce this to you because I feel like I am surrounded with a bunch of as noble and high class people as there is in the state, and many of them feel very near and dear to me and I hate to bid you good-bye, but my other business compels me to do so.

I feel like it is my duty that if I make a sacrifice of my grocery stock I should offer it to the people who have stood by me since I have been in business here.

I wish to announce that on

**SATURDAY MORNING,
JULY 20, AT 8 O'CLOCK**

I will open my doors and offer to you my entire stock of

and will continue the sale until everything is cleared out of my house, including Groceries, Furniture and Fixtures.

I am not going to bother you with a long price list, for I am going to let them go regardless of cost. All I ask you to do is to come and see and I will convince you that I mean what I say.

The grocery stock amounts to about \$3,500, and you save 20 per cent. That means a saving to the customers of about \$600, and it is everybody's patriotic duty at this distressful time to save all they can.

Rules of this sale will be SPOT CASH and no order of goods delivered amounting to less than \$5.00.

TURKS DEMAND CONTROL OF THE BLACK SEA

(By the Associated Press)
Amsterdam July 19.—"Turkish policy is at present entirely dominated by a desire to possess the upper hand in the Black Sea," writes the Balkan correspondent of the Nieuwe Rotterdamse Courant, "and practically nothing else is discussed in the Turkish press and leading political circles. The proposal that the Russian fleet captured at Odessa and Sebastopol shall be handed over to Turkey is warmly supported by the

whole press of the capital. The Grand Vizier told a deputation recently that the Porte was busy negotiating with Germany with a view to the realization of this universal national desire and that every effort would be made to that end."

ANTI-CONSCRIPTION IN IRELAND LESS BITTER

(By the Associated Press)
Dublin, June 21.—The agitation against conscription has relaxed in face of the proclamation calling for voluntary recruits, and no attempt to apply the draft is anticipated before October, and then only in the event of a conspicuous failure to obtain the necessary men by enlistment.

The suppression of illegal drilling proceeds daily and is greatly helped by the warning of the government that if it continues they will declare the counties affected "special military areas." The Irish people have been quick to realize that the extension of such areas would greatly facilitate the application of conscription, and advice is everywhere being given to the young men to avoid assembling in military formation. A curious feature of the prosecutions is the number of instances which reveal the fact that the accused have brothers or other relatives, sometimes two or three, now serving in the army in France. None of the Sinn Féin leaders arrested at Whitehead, imprisoned under the defence of the Realm Act, has so far taken advantage of the provision which enables them to appeal against their imprisonment. To some of those who protested against their continued incarceration without trial, it was pointed out that a trial in some leading instances might mean a conviction, that a conviction on such a charge carried penalty of death, and that the accused might be better satisfied if their friends, instead of interfering, left them to the slighter punishment of internment.

The immediate purpose of the government is to make a success of its recruiting campaign. The work is done by civilians drawn from all political parties, the most notable of whom is Sir Horace Plunkett. Local committees will be formed on this principle in every district. Pro-Allied propaganda, hitherto totally neglected, will be undertaken and an attempt made by suitable literature to explain to the Irish people the real issues of the war. The Associated Press is informed by a high official here that it is the intention to bring American troops to Ireland. The visit of the Canadians last year proved some stimulus to recruiting, and it is felt that the presence of American troops would bring vividly home to the Irish mind the part which America is taking in the war, and remove the too prevalent impressions that this is an English war in which Ireland has no interest.

TRAINED NURSE ADVISES PEOPLE

"I was a great sufferer of stomach and liver trouble and cannot say enough in praise of May's Wonderful Remedy. It has done so much for me and I am recommending it to other sufferers. I was a trained nurse in Marine and other hospitals years ago, and therefore many come to me for advice. I certainly received great benefit from May's Wonderful Remedy." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Gwin & May's Drug Co., and Druggists Everywhere.

GERMANS COMPLAIN OF SECOND HAND CLOTHING DRIVE

(By the Associated Press)
Amsterdam, July 19.—The "voluntary" surrender of worn clothing for the benefit of war workers in Germany is turning out a complete failure.

The brief initial rush which was motivated by expectations of obtaining exemption from the threatened forcible emptying of wardrobes, soon died down. Berlin, which was expected to yield forty thousand suits has not supplied half that number and the same tale comes from all other centers.

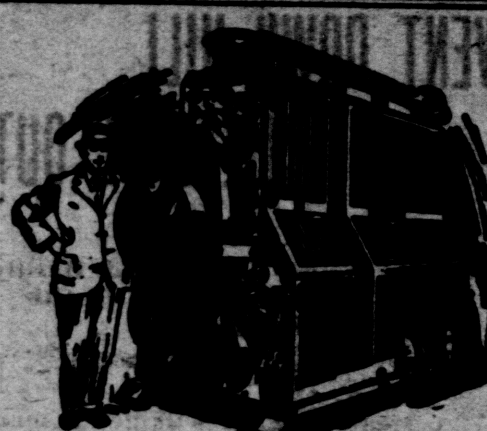

The period for bringing in the clothing had to be extended everywhere and bonuses given as at Schaeneberg where every old suit reaped a reward of a jar of real honey or a packet of pudding powder. Essen is the first town where steps have already been taken for an official inspection of private wardrobes but others will inevitably follow. In the meantime there are many indignant letters in the newspapers from citizens who patriotically denied themselves articles of clothing and which they are now told are not good enough for munition workers. Complaint is made that the latter earn much more money and live in better style than the disappointed benefactors.

When you feel lazy, out of sorts and yawn a good deal in the daytime, you can charge it to a torpid liver which has allowed the system to get full of impurities. HERBINE cures all disorders produced by an inactive liver. It strengthens that organ, cleanses the bowels and puts the system in good healthy condition. Price 60c. Sold by Bart Smith.

SAVING OF SUGAR STRIKES U-BOAT

Many persons who are doled out a skimpy two teaspoonsful of sugar to go over their grape fruit, cereal and coffee, probably would be surprised to know that there is no world sugar shortage, but in fact the greatest supply of sugar in all history.

The difference between the wheat situation and the sugar situation is this—that in the first case the United States has to ship out the wheat it has and in the other it has to ship in the sugar it hasn't.

Sugar in abundance awaits shipment in the East and West Indies. As close as Cuba there is a plentiful supply of sugar but few ships can be spared to carry it here.

Supplying an army of a million men overseas and shipping food essentials to our allies requires the use of all ships that can be relieved from other duty. The sugar is available but the means of transporting it is not.

One of the reasons for the acute shortage of sugar at this time is the recent activity of submarines on the Atlantic coast. A number of ships sunk were sugar carriers. The Texas carried more than 20,000,000 pounds of sugar to the bottom of the ocean. The loss of cargoes is not the only loss for the ships sunk are removed from carrying trade.

By saving sugar more shipping space is made available to send food and supplies to our armies and allies.

GO INTO PROFITEERING

Prompt work on the part of the federal food administration for Oklahoma has prevented a strike of 1,200 smelter employees at Bartlesville.

The men were dissatisfied with prices that have been charged at Bartlesville stores and asserted that even though they were granted an increase in wages, that merchants would take it up in higher prices. They asserted that there has been innumerable instances of profiteering in Bartlesville.

W. B. Alley, executive secretary of the state food administration, went to Bartlesville and conducted an investigation. He placed an auditor at work on books of stores complained against and if any cases of profiteering are found refunds to the men will be ordered and the merchants prosecuted. Upon this assurance the men agreed to continue at work.

Doing hard work in a bent or stooping position puts a stitch in the back that is painful. If the muscles have become strained, you can't get rid of it without help. The great penetrating power of BALLARD'S SNOW LINIMENT will appeal to you most strongly at such times, because it is the very thing you need. Price 25c, 50c and \$1.00 a bottle. Sold by Bart Smith.

MAN SLEEPS WHILE HIS BEDDING BURNS

Occupant of Next Room Finds Him Stretched Out Like Brunhilda.

Newton, N. J.—He slumbered deeply and loudly in his room at the Waldmere hotel. After a little a cigarette butt that he had dropped ignited the mattress. He continued to sleep, while little flames ran along its edge and the room filled with smoke.

The man in the next room began to choke and traced the fire to the door of the slumberer. He entered to find the mattress afire, with its occupant

Entered to Find the Mattress Afire, stretched calm and still like Brunhilda on her pyre—only Brunhilda did not snore.

The intruder picked up the pitcher and emptied its contents on the modern Rip Van Winkle, who stirred, muttered drowsily, and slept again. The fire was out, to all appearances, and the rescuer left, pursued by the snores of the rescued.

Five hours later the man in the next room appealed to the management. "He's afire again," he complained, "and I can't wake him up."

It took two strong men to rouse him sufficiently for him to slide off the burning mattress.

HUG BY PRETTY GIRL ENDS IN LOSS OF \$130

San Francisco.—A long hug by a pretty girl cost Charles Smulter, of this city, \$130, and the fact that the young woman was beautiful does not console him in the least. Smulter told the police that he was walking down the street when the "fair young thing" threw her arms about his neck babbling terms of endearment with vehemence. Smulter struggled a half block before he could break from her embrace. Then he discovered that his wallet was missing.

THOUGHT SHE BURIED SON

Georgia Woman Treated to Sensation When She Meets Him in Atlanta.

Atlanta, Ga.—All the sensations associated with the miracles of olden times have been experienced by Mrs. Rosa Holley Whitehead of Atlanta, who recently attended, as she thought, the funeral of her son, Aubrey Whitehead in Louisville, Ky. After the ceremonies Mrs. Whitehead returned to Atlanta and met her son, who is in perfect health. The cause of the curious mistake was the result of a remark made by Aubrey, which was overheard, that he "would end it all in the river." The body of a man was found in the Ohio river and young Whitehead disappeared. There was great resemblance in the body to young Whitehead. A Louisville undertaker is wondering who is going to pay for the expensive funeral.

"ROLL BONES" TO SHOW JURY

Detroit Defendant, After Demonstrating a Crap Game, Is Convicted.

Detroit, Mich.—While a court and a jury looked on and sanctioned the act, a real old-fashioned crap game took place in the courtroom here.

After some of the jurors had started the court by admitting they had never seen a crap game, Alfred Frank, a negro, who was the defendant in the case on trial, was called on to demonstrate "rolling the bones."

"Now, talk to 'em," as you did the night of the murder," the court ordered, and Frank obeyed. It was one of the names given the dice that led to the shooting of Charles Powell, another negro. Frank was found guilty of the crime.
